KEY RESPONSIBILITIES:

Reporting to the QA Manager the ideal candidate will work on the TOPS Platform to help deliver the highest level of quality for assigned online projects.

Must be able to:

- Provide QA support for multiple on-going web development projects, being developed simultaneously
- Manage the full end to end QA aspect of projects; interacting closely with clients, project managers, developers and designers to define, prioritize, track QA items.
- Review requirements, develop test plans and test cases according to Test Design
- Carry out functional, integration and performance testing for new releases
- Assist in defect investigation and escalation
- Provide back-up to other QA testing projects as required
- Use different testing tools for manual and automated testing

DESIRED EXPERIENCE AND KNOWLEDGE:

- 1-2 years of QA experience in an online environment.
- Technical background (e.g. developer, computer science major, business system analyst).
- In-depth knowledge of internet trends, technology, platforms, social media, content sharing...etc

DESIRED PERSONAL ATTRIBUTES:

- High attention to detail and commitment to quality.
- Self-motivated, can also work independently without constant supervision
- Superb communication skills and ability to work effectively on a team and with clients
- Thrives on working under pressure in a fast paced multi-project environment

About Torstar Digital: <http://www.torstardigital.com>
