**Forward your resume to:**  
[careers@torstardigital.com](mailto:careers@torstardigital.com)

**TECHNICAL SKILLS SUMMARY: Expert level OOP, strong server side scripting, preferably C#, Objective C, C, C++, JAVA and Mobile related technologies and platforms.**

### **KEY RESPONSIBILITIES:**

- As a member of Professional Services team work on creating mobile solutions for existing and new online media clients such as Toronto Star, toronto.com, wheels.ca, eyeweekly.com etc.
- Execute technical implementation, integration and customization of our proprietary CMS to client mobile sites/applications
- Participate in application testing, documentation and deployment.
- Communicate effectively to ensure that all business requirements are being assessed and addressed to ensure development projects meet or exceed performance targets.
- Architect software solutions and determine current limitations and compatibilities between subsystems, selection of new concepts and methodology, and development of major routines and utilities.

### **DESIRED EXPERIENCE AND KNOWLEDGE:**

- 1-2 years demonstrated mobile development experience
- Expert in C#, Obj-C, JAVA (C/C++ are a plus).
- Experience developing native iPhone apps or other mobile apps are strongly preferred.
- Holistic understanding of the mobile user experience, (e.g. pricing, technology, user interface, user behavior, eCommerce, advertizing) and nuances inherent of different devices and operating system versions
- Experience at a leading mobile application product company and/or start-up experience.
- Ability to participate in a cross-functional team environment.
- Contribute to technical possibilities in roadmap across mobile platforms (e.g. iPhone, Blackberry, Android)
- Strong technical and design skills and the ability to learn new technologies quickly.
- Knowledge of RDBMS, preferably MS SQL
- Front end knowledge HTML5, JS and CSS, as well as mobile usability.
- Experience working in a Test Driven/Agile Development environment

- Experience with Information Architecture and building user interfaces for customer facing applications
- Postsecondary education in IT related field

### **DESIRED PERSONAL ATTRIBUTES:**

- Creative and passionate about Internet and mobile services and application technologies.
- Thrives on working under pressure in a fast paced multi-project environment
- Works effectively in an agile, collaborative team of developers and graphic designers
- Self-motivated, can also work independently without constant supervision
- Applies initiative and creativity when approaching challenges
- Able to communicate effectively within a development team and with clients
- High attention to detail and commitment to quality
- Welcomes being challenged and pushed professionally
- Takes active interest in the company
